

AL AMEEN

Full Stack Developer — MERN Stack

Kollam, Kerala • 9061638482 • alluallu6002@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 1 year of hands-on experience building production-grade web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Proficient in TypeScript, RESTful API design, real-time systems with Socket.IO, and cloud deployment on AWS and Vercel. Demonstrated ability to independently architect, develop, and deliver scalable, secure applications from concept to production.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frontend: React.js, Redux Toolkit, Tailwind CSS, Responsive UI Design, Performance Optimization

Backend: Node.js, Express.js, REST API Design, MVC & Layered Architecture

Database: MongoDB, Mongoose, MongoDB Atlas, Schema Design, SQL

Auth & Security: JWT, OAuth, Bcrypt, HTTP-only Cookies, CORS, Rate Limiting

Real-Time & Integrations: Socket.IO, WebSockets, Razorpay, Google Maps API

Cloud & Tools: AWS (EC2), Vercel, Git, GitHub, Postman, VS Code

PROJECTS

Pepperpot — Real-Time Food Ordering Platform (Freelance) | *MERN, TypeScript, Socket.IO, Razorpay, Google Maps API*

- Architected and delivered a production-grade food ordering platform featuring real-time order tracking and automated admin notifications.
- Designed scalable RESTful APIs and modular backend services using Node.js and Express.js, enabling efficient order processing and user management.
- Implemented secure authentication and authorization using JWT with encrypted password storage via Bcrypt and HTTP-only cookies.
- Integrated Razorpay payment gateway to support secure online transactions and seamless checkout workflows.
- Built a real-time communication system using Socket.IO, eliminating manual status updates and significantly improving operational efficiency.
- Optimized frontend performance through lazy loading, debouncing, and efficient Redux state management.
- Integrated Google Maps API for live delivery tracking and route optimization.
- Strengthened application security with rate limiting, request validation, and dynamic CORS configuration.

Derby Fashion — E-Commerce Platform | *Node.js, Express.js, MongoDB, EJS, HTML, CSS*

- Built a fully server-rendered e-commerce system using MVC architecture for men's clothing and footwear.
- Implemented product catalog, cart management, and end-to-end order processing workflows.
- Designed MongoDB schemas supporting size-based product variants — apparel sizes (M, L, XL, XXL) and footwear sizes (42–45+).
- Developed advanced user management with product quantity controls and size-wise inventory tracking.
- Integrated Razorpay payment gateway with support for single-item order cancellation and automated refund processing.

TOT — Marketing Ad Platform | *React (TypeScript), Node.js, Express.js, MongoDB Atlas, Razorpay [In Progress]*

- Developing a monetized ad-running platform where users earn revenue by uploading promotional video content.
- Enabling business owners to create and manage ad campaigns with real-time video view tracking and analytics.
- Implementing automated payment distribution to users based on verified ad video engagement metrics.
- Building video upload functionality with cloud storage integration and campaign performance dashboards.

MINI PROJECTS

Practice projects showcasing breadth across the frontend and backend stack:

- **User Management System** — *React.js, Node.js, MongoDB* — Full-stack CRUD with authentication and role-based access
- **Apple Store Clone** — *HTML, CSS* — Pixel-accurate recreation of Apple's product landing page
- **Netflix Clone** — *React.js* — Streaming UI with dynamic content rendering and routing
- **BMW Website Clone** — *HTML, CSS* — Responsive automotive brand website
- **OLX Clone** — *React.js* — Marketplace UI with listing and category browsing features
- **Astra Space Clone** — *HTML, CSS, Bootstrap* — Space-themed responsive landing page
- **To-Do List App** — *React.js* — Task management app with state-driven UI
- **DrugFree** — *HTML, CSS* — Awareness campaign landing page

OTHER EXPERIENCE

Videography & Visual Content Creation [\[View Work\]](#)

- Experienced videographer and photo editor with a strong eye for visual storytelling and brand aesthetics.
- Proficient in professional editing tools including CapCut, VN, Adobe Photoshop, Adobe Express, and Adobe Lightroom.
- Delivers polished video and photo content for social media, marketing campaigns, and personal branding.

EDUCATION & TRAINING

Full Stack Development Bootcamp — Brototype • Jul 2024 – Nov 2025

Self-Learning Platform • Industry-level weekly code reviews by expert practitioners

Covered full-stack MERN development, clean architecture, and real-world project delivery.

Higher Secondary Certificate (Plus Two) — Commerce with Computer Applications 2022 – 2024

LANGUAGES

English (Professional Working Proficiency) • **Malayalam** (Native)
